DESCRIPTION

Summer School is now in session on-demand! The Summer School with WSBA is a three-part series focused on different and crucial aspects of office management. Session 2 of this series focuses on your organization, in both senses of the word: order and team.

Begin by learning how you can bring order to your work and best use two organizational tools in the Microsoft Office suite: OneNote and ToDo. Then, learn how to bring and keep good support staff on your team.

AGENDA

1 **Organizational Tools: Creating Digital Sanity: Part I - OneNote**

The world of law is ever-changing and while you may know what is coming in the next hour, it may all go sideways within 5 minutes. Whether you work for yourself or with hundreds of other attorneys, technology can change a chaotic day into a manageable one. This course is designed to introduce two Microsoft applications: To Do and OneNote. Learn how these tools offer powerful ways to gain control over your day and keep your notes organized and easily accessible. Say goodbye to overwhelm and hello to digital sanity with this live demonstration.

(agenda continued from previous page)

3 **Building a Strong Law Firm Culture: Attracting, Retaining & Empowering Talent**

How does your law firm culture reflect your values? We'll examine how evolving workplace values—like inclusivity, flexibility, and collaboration—impact recruitment, retention, and overall firm success. Attendees will gain insight into the shift from traditional hierarchical models to people-centered environments and learn practical strategies to create a workplace where top talent thrives and diverse voices are heard. A strong culture shapes how teams collaborate, how clients are served, and how the firm is perceived in the legal community. It's the foundation of long-term success and attracts the right talent, building a lasting reputation.

DESCRIPTION

Summer School is now in session on-demand! The Summer School with WSBA is a three-part series focused on different and crucial aspects of office management. Session 3 of this series focuses on cybersecurity practices every legal professional should know. Learn practical steps to manage risk, protect client data, and respond effectively to cyber incidents.

Law firms of all sizes handle sensitive information that makes them attractive targets for cyber threats. This CLE session outlines five critical cybersecurity practices every legal professional should know, with guidance rooted in leading frameworks such as the NIST Cybersecurity Framework and SP 800-53. Attendees will learn practical steps to manage risk, protect client data, and respond effectively to cyber incidents. The session focuses on actionable strategies that can be implemented regardless of firm size or technical expertise.
